Course Description:

A study of the properties of materials and their interactions with each other. Development of theories and applications of the principles of energetics, dynamics and structure. Intended primarily for science majors and pre-professional students.

Course Outcomes:

Course Student Learning Outcomes	How students will practice each outcome in this Course	How student achievement of each outcome will be assessed in this Course
Students will identify and explain trends in physical and chemical properties.	-lectures -textbook readings -Sapling exercises	-exams -Sapling exercises
Students will learn vocabulary, how to classify and name chemical materials and how to develop familiarity with general chemical trends and principles	-lectures -textbook readings -Sapling exercises	-exams -Sapling exercises
Students will learn how to apply general chemical knowledge to solve basic chemistry problems and to implement these logical strategies to solve complex, multistep problems	-lectures -textbook readings -Sapling exercises	-exams -Sapling exercises
Students will apply mathematical techniques to formulate and solve problems in chemistry.	-lectures -textbook readings -Sapling exercises	-exams -Sapling exercises

Required Texts, Additional Reading, and Other Materials:

1. **Chemistry** - OpenStax ISBN: 9781938168390
2. Sapling Learning for General Chemistry access
3. Access to MU Online and a Marshall email account
4. Non-programmable calculator

Grading Policy

The grade for this class will be determined from homework, five in-class exams and a cumulative, final exam. The homework portion of the grade will be determined from Sapling Learning exercises. The material for the exams will come from lectures, Sapling problems and the reading assignments. In-class exams may cover material from previous exams.

Sapling exercises	100 points
In-class exams (150 each)	750 points
<u>Final exam</u>	<u>150 points</u>
	1000 total

Grading Scale: A 900-1000 B 800-899 C 700-799 D 600-699 F < 600

Attendance Policy

Attendance for this class is not mandatory. By that, no portion of your grade will be determined by attendance. Absences from exams can only be made-up if the absence falls within one of the categories outlined in the undergraduate catalog for excused absences. To make-up an exam, you will need to follow the process for securing an excused absence. Excused absences must be obtained as soon as possible.

Other Policies

1. Cell phones cannot be used, or out, during exams.
2. Sharing calculators during exams is prohibited.
3. During exams, all materials necessary will be provided to you except a pencil and calculator. You may NOT use your own paper, etc.
4. Please turn off cell phones during class, failure to do so may result in dismissal from lecture.
5. Class announcements may be made via email to your university email address and it is your responsibility to check that account on a regular basis.

Sapling Learning Enrollment Instructions

- Go to www.saplinglearning.com/login to log in or create an account.
- Under Enroll in a new course, you should see Courses at Marshall University. Click to expand this list and see courses arranged by subject. Click on a subject to see the terms that courses are available.
- Click on the term to expand the menu further (note that Semester 1 refers to the first course in a sequence and not necessarily the first term of the school year).
- Once the menus are fully expanded, you'll see a link to a specific course. If this is indeed the course you'd like to register for, click the link.
- You will be prompted to enter a key code. Enter "103".
- Review the [system requirements](#) and confirm that Flash is updated and enabled in your browser.
- **Need Help?** Our technical support team can be reached by phone, chat, or by email via the Student Support Community. To contact support please open a service request by filling out the webform:
