Chemistry 212

SPRING 2018

Welcome to Chemistry 212 for the Spring Semester of 2018. This course is the continuation of Chemistry 211 and will cover many basic principles of chemistry. Topics this semester will include: colligative properties, kinetics, equilibrium, acids and bases, solubility, thermodynamics, oxidation and reduction, nuclear chemistry and an introduction to inorganic and bio- chemistry.

Course	Principles of Chemistry II - CHM 212, Sec 201, CRN 2377				
Title/Number	·				
Semester /Year	Spring 2018				
Days/Time	MW, 1600p - 1715p				
Location	S 473				
Instructor	Price, William				
Office	S 490				
Phone	696-3156				
E-Mail	pricew@marshall.edu				
Office Hours	MW 1100 -1220 & R 1300-1400				
University Policies	Policies By enrolling in this course, you agree to the University Policies listed				
	below. Please read the full text of each policy by going to				
	www.marshall.edu/academic-affairs and clicking on "Marshall University				
	Policies." Or, you can access the policies directly by going to				
	www.marshall.edu/academic-affairs/policies/. Academic				
	Dishonesty/Excused Absence Policy for Undergraduates/Computing				
	Services Acceptable Use/Inclement Weather/Dead Week/Students with

	Suspension/Academic Rights and Responsibilities of Students/Affirmative				
	Action/Sexual Harassment				

Course Description: From Catalog

Principles of Chemistry II. 3 hrs. I, II, S. A continuation of Chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec. (PR: *C* or better in CHM 211; CR: CHM 218)

The table below shows the following relationships: How each student learning outcome will be practiced and assessed in the course.

Course student learning outcomes	How students will practice each outcome in this course	How student achievement of each outcome will be assessed in this course
Students will To become familiar with the vocabulary of modern chemistry	Lecture, quizzes, practice assignments, ALEKS	Exams, quizzes and ALEKS
Students will gain insight into the ever-expanding role of chemistry within the context of society, medicine, materials and environment.	Lecture, quizzes, practice assignments, ALEKS	Exams, quizzes and ALEKS
Students will learn and	Lecture, quizzes, practice	Exams, quizzes and ALEKS

reinforce logical strategies for	assignments, ALEKS	
solving quantitative problems.		

Required Texts, Additional Reading, and Other Materials

- 1. *Principles of General Chemistry*, *Third Edition* by Martin S. Silberberg, McGraw-Hill. 2013.
- ALEKS CODE: HX3HE-YVEYT
- 3. non-programmable calculator for quizzes, tests, and exams (it must not have keys for the alphabet)
- 4. #2 pencil and black or blue ink pen for tests/quizzes

Electronic Device Policy

All cell phones and pagers must be either turned off or onto vibrate mode during class. Laptops must be turned off and placed on the floor during the lecture period. During examinations, all electronic devices except calculators must be inaccessible. Students **MUST BRING A CALCULATOR** to class for all lectures and exams. Calculators that are part of a cell phone or smart phones are **not** acceptable for use during an exam or quiz.

Grading Policy

There will be approximately 11 quizzes, ALEKS assignments, four midterm exams and one cumulative final exam. Quizzes will count for 100 points total (one quiz will be dropped), midterm exams will constitute a total of 300 points, while the final exam will be worth 100 points. **BONUS:** completion of *ALEKS* homework can result in an extra 12.5 points. Exam and quiz material will be drawn from the homework, the lecture, and the text. See schedule of tentative exam dates. Missed exams or quizzes may be made up, with a valid University excuse, on **Wednesday May 2nd from 11 am until 1 pm.** If you are planning on making up work on this make-up day you **must** let me know via email by 4 pm Wednesday, April 25, 2018. Cutoffs for grades will be no higher than those listed below, but may be lowered if appropriate. $A \ge 90.00$; $90.00 < B \ge 80.00$; $80.00 < C \ge 70.00$; $70.00 < D \ge 60.00$; 60.00 < F

Attendance Policy

I strongly encourage you to come to class so that you can more fully understand the material that you will read in the book. If you are absent, obtain the notes from another student or online. In situations where the student is aware of the absence for an exam or quiz in advance, arrangement for accommodations must be made prior to the absence. Otherwise, the designation of an absence as excused and any accommodation for that absence will be decided by the Dean of Students. If a student decides to not complete the course, he or she must visit the registrar and complete the appropriate paperwork to remove the course from his or her schedule. The last day to withdraw from a single class is **Friday, March 16, 2018**.

Tentative Course Schedule*

To make the most of each class period, reading and assignments should be completed before lecture.

²

^{*} Reading assignments and exam dates are approximate and may be subject to change

Date	Reading	Notes	Week	Reading	Notes
1:	Chapter 12	Forces	9:	Chapter 18	Acid/Base
1/8-1/10			3/5 -3/7	Chapter 19	Equilibrium
					Ionic Equilibria
2:	Chapter 13	Solutions	10:	Chapter 19	Ionic Equilibria
1/17			3/12		
3:	Chapter 13	Solutions	10:	Chapters	Midterm III
1/22-1/24	Chapter 16	Chemical Kinetics	3/14	18 & 19	
4:	Chapters	Midterm I		Spring Break	
1/29	12 &13		3/19-3/21		
4:	Chapter 16	Chemical Kinetics	11:	Chapter 20	Thermodynamics
1/31	12 & 13		3/26 - 3/28		
5:	Chapter 16	Chemical Kinetics	12:	Chapter 20	Thermodynamics
2/5 - 2/7	Chapter 17	Equilibrium	4/2 – 4/4	Chapter 21	Electrochemistry
6:	Chapter 17	Equilibrium	13:	Chapter 21	Electrochemistry
2/12-2/14			4/9 - 4/11		
7 :	Chapters	Midterm II	14:	Chapters	Midterm IV
2/19	16 & 17		4/16	20 - 21	(Optional)
7 :	Chapter 18	Acid/Base	14:	Chapter22	Coordination Chem
2/21		Equilibrium	4/18		
8:	Chapter 18	Acid/Base	15:	Chapter 23	Nuclear Chemistry
2/26 - 2/28		Equilibrium	4/23 - 4/25	Review
