Course	Principles of Chemistry II / CHM 212, Section 201	
Title/Number		
Semester/Year	Spring 2015	
Days/Time	10:00-10:50 AM MWF	
Location	473 Science Hall	
Instructor	Dr. Laura McCunn-Jordan ***PLEASE CALL ME DR. MCCUNN	
Office	466 Science Hall (research lab: 404 Science Hall)	
Phone	(304) 696-2319	
E-Mail	mccunn@marshall.edu	
Office Hours	9:00-9:50 and 1:00-2:00 Monday, Wednesday, Friday; other times by	
	appointment. I welcome drop-in visits, but cannot guarantee availability	
	outside of office hours. Simple questions can be answered via email.	
University Policies	By enrolling in this course, you agree to the University Policies listed below. Please read the full text of each policy by going to www.marshall.edu/academic-affairs and clicking on "Marshall University Policies." Or, you can access the policies directly by going to www.marshall.edu/academic-affairs/policies/ . Academic Dishonesty/Excused Absence Policy for Undergraduates/Computing Services Acceptable Use/Inclement Weather/Dead Week/Students with Disabilities/Academic Forgiveness/Academic Probation and Suspension/Academic Rights and Responsibilities of Students/Affirmative Action/Sexual Harassment	

Course Description

A continuation of CHM 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3.00 credits. Prerequisite: grade of C or better in CHM 211

Required Texts, Additional Reading, and Other Materials

- 1. *Chemistry: The Science in Context, Third Edition* by Thomas R. Gilbert, Rein V. Kirss, Natalie Foster, and Geoffrey Davies; W. W. Norton & Company, Inc.
- 2. SmartWork access for the textbook
- 3. access to MU Online and a Marshall email account
- 4. non-programmable calculator for quizzes, tests, and exams (it must not have keys for the alphabet)
- 5. #2 pencil and ink pen for tests/quizzes

Course student learning outcomes	How students will practice each outcome in this course	How student achievement of each outcome will be assessed in this course
Students will identify and explain trends in physical and chemical properties.	lecturestextbook readingshomework	• tests and quizzes
Students will understand how the energy of a system governs the rate and extent of chemical reactions.	lectures textbook readings homework	• tests and quizzes
Students will understand how the relative amounts of chemical species govern the rate and extent of reactions.	lectures textbook readings homework	• tests and quizzes
Students will apply mathematical techniques to formulate and solve problems in chemistry.	lectures textbook readings homework	• tests and quizzes

Grading Policy

homework*	250	points
quizzes	50	points
tests (4 during the semester)	500	points
final exam	200	points
	1000	TOTAL POINTS

Grading Scale: A: 90-100%, B: 80-89%, C: 70-79%, D: 60-69%, F: 0-59% The percentage of total points earned will be rounded to the nearest whole percentage. The final grading scale may be adjusted in order to lower the threshold for a letter grade. If you believe there has been an error in the grading of your work, please consult Dr. McCunn. *Each student's lowest homework score of the semester will be dropped.

Attendance Policy

Attendance is highly recommended. In the case that class is cancelled due to inclement weather or an emergency on the day of a scheduled test, the test will be given in the next scheduled class period. If student tardiness becomes a significant distraction during lecture, the instructor reserves the right to refuse admission to tardy students.

Miscellaneous Policies

Please silence cell phone ringers during class or exams. The instructor reserves the right to answer any ringing cell phones during lecture, or to dismiss the offending student. Use of cell phones / PDAs / MP3 players and similar devices during tests, quizzes, and exams will be considered academic dishonesty. Recording of lectures without the instructor's permission is prohibited. Laptops should not be used during class without permission. The content of this course will adhere closely to the information contained in the textbook. You may use other resources (alternate texts, notes from other professors, etc.). If you find information that contradicts something written in the textbook or said in the lecture, please consult Dr. McCunn. Class announcements may be made occasionally via email to your university email address. Please check it on a regular basis. Lecture notes and handouts will be available in Dr. McCunn's office during office hours or by appointment. They will also be posted at MU Online as time permits.

Course Schedule

Week of:	Chapter	Topic		
1/12	10, 11	Intermolecular Forces, Solutions		
1/19	no class on 1/19; 11	Solutions		
1/26	14	Thermodynamics		
2/2	14; TEST 1 on 2/6	Thermodynamics		
2/9	15	Kinetics		
2/16	15, 16	Kinetics, Equilibrium		
2/23	16	Equilibrium		
3/2	TEST 2 on 3/4; 17	Aqueous Equilibrium		
3/9	17	Aqueous Equilibrium		
3/16	Spring Break			
3/23	18	Transition Metals		
	3/27 is last day to withdraw from full-semester courses			
3/30	18; TEST 3 on 4/3	Transition Metals		
4/6	19	Electrochemistry		
4/13	19, 21	Electrochemistry, Nuclear Chemistry		
4/20	21, TEST 4 on 4/24	Nuclear Chemistry		
4/27	21; TBA	Nuclear Chemistry, Special Topics		
5/2 SATURDAY 10:00 AM FINAL EXAM (location TBA)
