Course Overview:

Welcome to Chemistry Seminar! In this course, student will develop new or refine current skills that they may find useful in their academic and professional careers. The purpose of this course is to provide students a broad depth of knowledge in an appropriate field of chemistry, especially an emerging area of research activity that may be relevant. Students will be connected to a scientific community in a supportive atmosphere where teaching and research partnerships are formed and faculty and students work together in common pursuits. Students will listen to external speakers as well as outgoing research in the chemistry department.

Student Learning Objectives:

Students will:

1. Demonstrate your understanding and retention of fundamental chemistry concepts.
2. Analyze information and ideas
3. Develop communication skills necessary for scientific dissemination.

Materials

Book: None

Grading

This course will be graded as either Credit (CR) or No Credit (NC). A grade of Credit will be earned upon regular attendance.

Attendance

Attendance is mandatory for this class and will be monitored. Missing more than 25% of the seminar periods including excused absences will result in a grade of No Credit (NC). Absences from lectures can only be accepted if the absence falls within one of the categories outlined in the undergraduate catalog. All excused absences must be obtained as soon as possible. During each seminar period attendance will be taken by passing around a sign-in sheet and it is your responsibility to sign it. Furthermore, students must meet outside speakers for at least 50% of the seminars during lunch. Participation is **mandatory** and you will be expected to ask one (1) question to student speakers as well as outside speakers over the term which you will document to me by uploading them in *MU online*. Students will briefly state speaker's name, date, their questions, and the speaker's answer. **On the day of the seminar, Dr. Quiñones will assign a specific student to ask questions to the speaker.** The scheduled seminar list on the website will be updated throughout the semester and scheduled seminars will be posted around the fourth floor of the Science Building. It will be up to you to know when a seminar is planned.

We will have an orientation to seminar on **January 10th at 11:00 a.m. in Room S 465** to go over the syllabus and answer questions concerning your responsibilities.

Miscellaneous policies

I have an Open Communication Policy: If you are have any questions class related please do not hesitate to email me or come by my office. Please silence cell phone ringers during class. The instructor reserves the right to answer any ringing cell phones during lecture, or to dismiss the offending student. Use of cellphones / PDAs / MP3 players and similar devices during class will be considered academic dishonesty. Recording of lectures without the instructor's permission is prohibited. Laptops should not be used during class without permission.
