

**Marshall University**  
**MTH 102B Syllabus**

<b>Course Title/Number</b>	Abbreviated Preparation for College Mathematics B MTH 102B
<b>Semester/Year</b>	Fall 2015
<b>Section/CRN</b>	Section 101 (CRN 4771)
<b>Days/Time</b>	MW 3:00 – 3:50 p.m.
<b>Location</b>	Corbly Hall 330
<b>Instructor</b>	Dr. Evelyn Pupplo-Cody
<b>Office</b>	Morrow Library 106
<b>Phone</b>	(304) 696-3047
<b>E-Mail</b>	pupploco@marshall.edu
<b>Office Hours</b>	MTWR 1:30 – 2:30 and by appointment

<b>Teaching Assistant</b>	Mr. Vincent Smith
<b>TA Office</b>	Smith Music Hall 115
<b>TA Phone</b>	(304) 696-3986
<b>TA E-Mail</b>	smith2199@marshall.edu

<b>University Policies</b>	By enrolling in this course, you agree to the University Policies listed below. Please read the full text of each policy by going to <a href="http://www.marshall.edu/academic-affairs">www.marshall.edu/academic-affairs</a> and clicking on “Marshall University Policies.” Or, you can access the policies directly by going to <a href="http://www.marshall.edu/academic-affairs/policies/">www.marshall.edu/academic-affairs/policies/</a> . Academic Dishonesty/Excused Absence Policy for Undergraduates/Computing Services Acceptable Use/Inclement Weather/Dead Week/Students with Disabilities/Academic Forgiveness/Academic Probation and Suspension/Academic Rights and Responsibilities of Students/Affirmative Action/Sexual Harassment
----------------------------	---

**Course Description: From Catalog**

A mastery-based course that will prepare STEM students for College Algebra. Prerequisite: MTH 098 or MTH 100 or MTH 121 and major requiring completion of MTH 127 or 160. 1 credit.

This course is intended to prepare students for MTH 127 or MTH 160. It will prepare students for courses that use algebra.

**The Modified Math Emporium Format**

The format of this course is known as a modified math emporium. Math emporia have been shown to be more effective than traditional lecture-based courses in a number of colleges and universities across the country in the last decade. Studies have shown that when students actively engage with course material, on average they have higher rates of achievement of intended learning outcomes as well as higher course completion rates. The emporium model is based on mastery learning, promotes active learning, and provides flexibility in the pace at which students move through content, allowing students to cover familiar material quickly so that they can spend more time on topics that are more challenging for them. The format features timely personal assistance from the instructor, coupled with interactive computer technology for instruction, and assessment with immediate feedback. The

interactive computer technology provides a nearly unlimited variety of practice examples, step-by-step guidance, and customized review support.

Note: Although this course involves computer-assisted instruction, it is not a distance learning or online course, nor is it an independent study.

**The table below shows the following relationships: How each student learning outcome will be practiced and assessed in the course.**

<b>Course Student Learning Outcomes</b>	<b>How students will practice each outcome in this Course</b>	<b>How student achievement of each outcome will be assessed in this Course</b>
Students will develop a facility in solving equations.	Both outside and inside the classroom, students will practice to master these concepts. These ideas are covered in Module O.	Students must certify in each lesson at the mastery level with a minimum grade of 80%. Students must demonstrate mastery of 80% on each module test.
Students will develop graphing techniques to arrive at solutions of algebra problems.	Both outside and inside the classroom, students will practice to master these concepts. These ideas are covered in Module O.	Students must certify in each lesson at the mastery level with a minimum grade of 80%. Students must demonstrate mastery of 80% on each module test.
Students will learn the basics of polynomials and their applications.	Both outside and inside the classroom, students will practice to master these concepts. These ideas are covered in Module P.	Students must certify in each lesson at the mastery level with a minimum grade of 80%. Students must demonstrate mastery of 80% on each module test.
Students will practice techniques of factoring.	Both outside and inside the classroom, students will practice to master these concepts. These ideas are covered in Module Q.	Students must certify in each lesson at the mastery level with a minimum grade of 80%. Students must demonstrate mastery of 80% on each module test.
Students will be able to apply their algebra skills to add and subtract rational expressions, solve equations involving radicals, and solve quadratic equations.	Both outside and inside the classroom, students will practice to master these concepts. These ideas are covered in Module R.	Students must certify in each lesson at the mastery level with a minimum grade of 80%. Students must demonstrate mastery of 80% on each module test.

**Required Texts, Additional Reading, and Other Materials**

(1) Textbook and computer software – Developmental Mathematics Software and e-book, ISBN 1935782517 9781935782513, Hawkes Learning Systems. A software license can be purchased at the student bookstore or on-line at <http://www.hawkeslearning.com/>.

Students who have not purchased a software license code within three weeks of the start of the semester will be automatically unenrolled. If a license is purchased within one additional week, the student will be re-enrolled.

(2) Calculator – A calculator is allowed on all assignments and exams. No internet enabled devices may be used as a calculator during exams.

(3) Headphones – Students who want to watch the HawkesTV instructional videos during class, as part of learning the course material, must use headphones.

(4) Notebook – Although this course involves computer-assisted instruction, students should have and use note taking materials in every class. Notes should be taken on each lesson. Problems should be worked out neatly in your notebook.

### **Course Requirements/Due Dates**

Students will complete the certifications with mastery 80% or higher, the module tests with mastery 80% or higher, and the final exam. Students have unlimited attempts to master the certifications. Students have 5 attempts to master the module tests.

A complete suggested pace is provided in this syllabus. Students may complete certifications or exams before the suggested dates, if they have completed the appropriate prerequisites. Students who work at or faster than the provided pace will complete the course in one semester.

The final exam for this section is on Monday, 12/7/2015 from 3:00 to 5:00 p.m. The last day to take the final exam is the final exam date for this section. All modules and module exams must be completed by the last day of classes; no modules or module exams can be completed during finals week.

### **Grading Policy**

Students must achieve a mastery of 80% or higher in each lesson certification in a particular module before taking the module exam. Each lesson certification is recorded in the gradebook as a 100%. The best of your (up to) 5 module test grades are recorded in the gradebook. The final exam can be taken only once.

Semester grades will be based on module test grades, certifications, the final exam, and attendance. Module tests (15% each for a total of 60%), certifications (20%), final exam (20%).

Grading scale: 90 – 100 A  
80 – 89.99 B  
70 – 79.99 C  
60 – 69.99 D  
Below 60 F

At the end of the semester, students who have not completed the course, but have completed 75% of the course material according to the schedule in this syllabus, will be assigned a grade of I (incomplete). Students should plan to finish the course during the next semester. Students who have not completed 75% of the course material will be assigned a grade of F.

### Attendance Policy

Students are required to attend each class. Unexcused absences from **three or more** classes will result in an F. To obtain an excused absence, students should go to the Dean of Students' Office in the MSC. Students do not need to attend class after successful completion of all modules, module tests, and the final exam.

### Tutoring

Math computer lab hours: MTWR 4pm – 6pm in Smith Hall 620. Please remember to get your instructor's permission before taking tests during open computer lab hours. You will need to show your ID to the instructors and students staffing the lab when taking tests.

The 620 lab is also open Mon 10am – 11am, 1pm – 2pm, 3pm – 4pm; Tues 3pm – 4pm; Wed 8am – 10am; Thurs 10am – 11am, 1:30pm – 2:30pm; Fri 10am – 11am.

Math Department Tutoring lab hours: MTWR 10am – 4pm and F 10am – 12noon in Smith Music 115. There are no computers in the math tutoring lab. Please bring your questions on paper or bring your own laptop. No tests can be taken in the math tutoring lab.

Students may attend class periods of other MTH 100 or MTH 102 sections on a first come first served basis, if the classroom has an open computer. Students must arrive on time, stay the entire class period, and get instructor permission to use an open computer.

### Course Schedule

Module	Activities	Complete on or before	✓
	Introduction to technology and policies – how this course works	M 8/24	
<b>O</b>  Graphing  Solving Systems	<b>Module O Pretest</b> for students who are confident in graphing and solving systems of linear equations		
	Lessons 8.1a and 8.1b <i>Learn, Practice, and Certify</i>	W 8/26	
	Lessons 8.2 and 8.3 <i>Learn, Practice, and Certify</i>	M 8/31	
	Lessons 8.4 and 8.5 <i>Learn, Practice, and Certify</i>	W 9/2	
	Lessons 8.6 and 8.7 <i>Learn, Practice, and Certify</i>	W 9/9	
	Lessons 9.1 and 9.2 <i>Learn, Practice, and Certify</i>	M 9/14	
	Lessons 9.3 and 9.4a <i>Learn, Practice, and Certify</i>	W 9/16	
	Lesson 9.4b <i>Learn, Practice, and Certify</i>	M 9/21	
	Module O Practice Problems		
	<b>Module O Test</b>	<b>W 9/23</b>	
<b>P</b>	<b>Module P Pretest</b> for students who are confident in polynomials		
	Lessons 10.1 and 10.2 <i>Learn, Practice, and Certify</i>	M 9/28	
	Lessons 10.3 and 11.1 <i>Learn, Practice, and Certify</i>	W 9/30	

Polynomials	Lessons 11.2a and 11.2b <i>Learn, Practice, and Certify</i>	M 10/5	
	Lessons 11.3 and 11.4 <i>Learn, Practice, and Certify</i>	W 10/7	
	Lessons 11.5 and 11.6a <i>Learn, Practice, and Certify</i>	M 10/12	
	Lesson 11.6b <i>Learn, Practice, and Certify</i>	W 10/14	
	Module P Practice Problems		
	<b>Module P Test</b>	<b>M 10/19</b>	
<b>Q</b>  Factoring	<b>Module Q Pretest</b> for students who are confident in factoring		
	Lessons 12.1a and 12.1b <i>Learn, Practice, and Certify</i>	W 10/21	
	Lessons 12.1c and 12.2 <i>Learn, Practice, and Certify</i>	M 10/26	
	Lessons 12.3a and 12.3b <i>Learn, Practice, and Certify</i>	W 10/28	
	Lessons 12.4a and 12.4b <i>Learn, Practice, and Certify</i>	M 11/2	
	Lessons 12.5 and 12.6 <i>Learn, Practice, and Certify</i>	W 11/4	
	Module Q Practice Problems		
	<b>Module Q Test</b>	<b>M 11/9</b>	
	<b>75% of the course is complete.</b>		
<b>R</b>  Adding and Subtracting Rational Expressions  Radicals  Quadratic Equations	<b>Module R Pretest</b> for students who are confident in adding and subtracting rational expressions, simplifying radicals, and solving quadratic equations		
	Lessons 13.2 and 14.1 <i>Learn, Practice, and Certify</i>	W 11/11	
	Lessons 14.2 and 14.3a <i>Learn, Practice, and Certify</i>	M 11/16	
	Lessons 14.3b and 14.4 <i>Learn, Practice, and Certify</i>	W 11/18	
	Lessons 15.1 and 15.3 <i>Learn, Practice, and Certify</i>	M 11/30	
	Module R Practice Problems		
	<b>Module R Test</b>	<b>W 12/2</b>	
	<b>Final Exam Practice Problems</b>		
	<b>Final Exam</b>	<b>M 12/7 4 - 6</b>	

## MARSHALL UNIVERSITY FALL 2015 EXAM SCHEDULE

EXAM HOUR	MONDAY DEC 7	TUESDAY DEC 8	THURSDAY DEC 10	FRIDAY DEC 11
8:00 A.M. TILL 10:00 A.M.	CLASSES MEETING AT 8:00 MWF	CLASSES MEETING AT 9:30 TR	CLASSES MEETING AT 8:00 TR	CLASSES MEETING AT 9:00 MWF
10:15 A.M. TILL 12:15 P.M.	CLASSES MEETING AT 10:00 MWF	CLASSES MEETING AT 11:00 MWF	CLASSES MEETING AT 11:00 TR	CLASSES MEETING AT 12:00 MWF
12:45 P.M. TILL 2:45 P.M.	CLASSES MEETING AT 2:00 MWF	CLASSES MEETING AT 12:30 TR	CLASSES MEETING AT 2:00 TR	CLASSES MEETING AT 1:00 MWF

**NOTE:** All classes meeting at 3:00 p.m. and after will be examined in two-hour time blocks at the first regularly scheduled class meeting during the above examination period. If the two-hour time allowance results in a conflict in exam times, it is the student's responsibility to notify the professor of the later course and to reschedule the later exam. Rescheduled exams must be concluded by Friday, December 11, at 6:00 p.m.

All Wednesday (only) afternoon classes, those meeting at 3:00 p.m. and after, will be examined Wednesday, December 9.

Saturday classes will be examined December 5 at their regularly scheduled class period.

The common final exam time and date for all sections of CHM 111, 203, 211, 212, 355, and 356 will be 10:00 a.m. Saturday, December 5.

**DEADLINE FOR ONLINE SUBMISSION OF GRADES MONDAY, DECEMBER 14, 12:00 NOON.**
